

# POLICY OF QUALITY

The Quality Management System of **FUTURECO BIOSCIENCE** establishes criteria and procedures for the development of our activity with the aim of:

- ✓ Strictly accomplishing with technical and legal requirements applicable to our products which are guaranteed to the final consumer.
- ✓ Ensuring the satisfaction of our customers concerning their expectation to the quality of FUTURECO BIOSCIENCE's products and technical supports.
- ✓ Continuously improving all the innovative, logistic and productive procedures
- ✓ Developing new products that give solutions to concrete problems, cover our customer's necessities and be respectful to the environment.

To ensure the maintenance of Quality Management System, the General Direction of FUTURECO BIOSCIENCE is committed to:

1. *Define and review the Quality Objectives, providing the necessary means to their accomplishment.*
2. *Ensure the suitability of human resources and the material destined to the production and commercialization of FUTURECO BIOSCIENCE's products and to the providing of services, with the aim of obtaining the complete satisfaction of our customers.*
3. *Motivate all the team to the accomplishment of what the Quality Management System establishes.*
4. *Do of the Quality Management System an instrument of Business Management, periodically reviewing its implementation and efficacy and establishing the mechanisms for its continuous improvement..*

**General Business**
